

## 关于美国康州农业实验站 Jason C. White 博士学术报告的通知

**报告题目：** Nanomaterials and the Food Supply: Assessing the Balance  
between Applications and Implications

**报告时间：** 8 月 9 日 10:30-12:00 AM

**报告地点：** 浙江大学紫金港校区环境与资源学院 B110 室

**主办单位：** 浙江大学环境过程研究所（联系人：林道辉，88982582）

### 报告人简介：

Dr. White received his B.S. (1992) in environmental science from Juniata College and M.S. (1995) and Ph.D. (1997) in environmental toxicology from Cornell University. He is the vice director and chief analytical chemist of the Connecticut Agricultural Experiment Station. He is the president of International Phytotechnology Society, managing editor of International Journal of Phytoremediation, and editorial board members of ES&T, ES&T Letter, and Environ Pollut. His research interests include: the accumulation and toxicity of engineered nanomaterials (ENMs) to crops, fate of ENMs in the environment, use of nanoscale micronutrients to suppress crop disease and enhance food production, detection of pesticides, toxins, poisons and heavy metals in food, and phytoremediation of persistent organic pollutants in soil. He has published about 150 papers. You can find more information about Dr. White from his websites (<http://www.ct.gov/caes/cwp/view.asp?A=2812&Q=345092>).
